Mrs. George, the woman who was acquitted of killing Saxton, says that she will not go on the stage but that she will lecture on woman's rights. It occurs to us that Mrs. George would appear more favorable if she would retire from public life entirely.

The latest wonder in the way of an invention to facilitate news paper work is a machine that will telegraph a portrait. In other words, with the aid of electricity and a photograph, an excellent picture can be sent from New York to St. Louis. The time is not far distant when a man will sit in New York, and with the aid of electricity, send news matter on a machine which will automatically operate type setting machines in Chicago and the other large cities.

It is said that the paper upon which the bogus revenue stamps were printed was made by a paper manufacturer who has a place near Chambersburg, Pa. The contract was made with him five years ago, and he was told that the reason that the letters "U. S. I. R." were wanted in the paper was that it was to be used as an advertisement for a patent medicine known as "Uncle Sam's Indian Remedy." The paper was made and shipped to E. R. per, and was then reshipped to the various places where it was used. The papermaker has been fully exonerated, having proved to the satisfaction of the officials that he knew nothing of the purpose to which it was to be put.

We are in the heyday of the toothless age, according to Dr. C. Bell of New York City, returned Monday in that city under the auspices of the Board of Education on "The Care of the Teeth and the Mouth." He pointed out a warning to those who, fearing the dentist, are at last obliged to go on the rack, the avoidance of which was the cause of all their agony. Said Dr. Bell: "To begin with, I must make the bold statement that we are becoming a toothless people. For otherwise how can we account for the fact that thousands of people to day are wearing artificial teeth? And there are so many thousands who would wear them if they could afford such a 'luxury.' Look at our children at the age of two. Their little teeth are already decayed. Our girls at the age of fourteen and sixteen have beautiful teeth, indeed. But do not be deceived. In many cases they are artificial." According to the doctor it is the microbe that wrecks first a man's teeth, his temper with them, and then his general health.

Two yards of oil cloth for 25 cents at the Counter Racket store.

H. C. Leach, jeweler and optician, Pearlstein building.

You Must Look

over our stock in order to appreciate its greatness. The variety of goods that we show is too extensive to enumerate here.

Our clothing is very stylish in cut and finish. Every garment will fit perfectly. Each is thoroughly well made.

We present the newest shades and textures for spring, and our prices are popular.

LOUIS MAYER
CLOTHIER AND FURNISHER

G. F. P.

Cures All Diseases of Women.

MANY women are under the impression that the disease peculiar to their sex is natural and incurable because so many suffer constantly from it. This is a mistake. Few women are so badly diseased that they cannot be cured. It is true, that they have taken a remedy that was efficient when the first symptoms of disease appeared, a new cure would have been the result. No woman should neglect herself. When the monthly period becomes too frequent, painful, profuse, obstructed or irregular in any way, or if she suffers from falling of the womb, white, or any other female trouble, she should at once resort to the use of

G. F. P.

Which stands for
GERSTLE'S FEMALE PANACEA.

Which is absolutely the best female remedy ever offered her. Even if she has been negligent and allowed disease to fasten itself upon her she should not despair of being cured. This medicine is a purely vegetable tonic, containing those ingredients intended by nature as a remedy for suffering women. It matters not if other remedies have been tried and proven failures. G. F. P. will not fail. Price, \$1.00 per bottle. For sale by druggists everywhere.

If you are suffering from female diseases of any kind, write to
THE LADIES' HEALTH CLUB,
Care L. Gerstle & Co., Chattanooga, Tenn., asking for any information about your sickness and you will receive the best of advice free. Your letters will be opened, read and answered by women.

Working Up Mutiny.

It has been known for some time that someone had been writing to the soldiers in the Philippines, trying to create discontent in their ranks, with the hope, evidently, of working up a mutiny among them. A dispatch from Boston to the St. Louis Republic says that Edward Atkinson, the famous Boston millionaire, anti-imperialist and economist, in an interview, defiantly announced that he was personally the alleged traitor who had been flooding the American army in the Philippines with letters and pamphlets tending to promote discontent and insubordination and to prevent the men from re-enlisting. He also said that he would keep on sending them.

"Have you received any intimation of disloyalty in conducting this work?" he was asked.

"Only from the editorials in the newspapers."

"Have you any reason to suppose that your documents will be stopped?"

"I hardly think the authorities would venture on such a base attempt to prevent soldiers who are voters from being informed as to the state of public opinion at home."

"Have you taken any other means to reach the troops?"

"Oh, no; I do not think it is necessary. It would be very easy to send documents to correspondents in Europe and have them mailed under foreign post age, but I do not think any such measure is necessary."

"Have any other documents been sent out?"

"Not to my knowledge. I think that the speeches and letters of Senator Hoar, Judge Edmunds, former Governor Boutwell and others are to be sent in large numbers, to the end that the privates in the army may know the direction in which sound public opinion is moving rapidly in this country."

"Might not this produce insubordination?"

"Yes, the kind of insubordination which I hope, with Tolstoi, will ere long pervade all armies, to the end that criminal aggression may be made impossible by the refusal of soldiers who think for themselves to carry out orders which are as abhorrent to them as they are consistent with any moral, economic or political principle. I sent my own pamphlets on 'The Hell of War' and upon 'Criminal Aggression' to the members of the peace commission, including Admiral Dewey, and to several of the generals of the army whom I believe to be persons of humane disposition—perhaps as much shocked by the orders from home as we have been here. I also wrote to the secretary of war for a copy of the army register, checked so as to indicate what regiments and officers may now be in the Philippine Islands, in order that I might send a very considerable number of pamphlets to their addresses."

"I should be very glad to receive mailing lists for this purpose, as I have not secured the army registers. Being in communication with Secretary Gage on other subjects, I informed him of my purpose, hoping that the facts might be presented in cabinet meeting."

The Thornton Sun is no more, but the plant has been purchased by Saunders Bros. and they have issued the Thornton News. The first copy is all right and shows that the publishers know how to make a good newspaper.

Wiess Hook and Ladder Co.
